LAOM PHANNYA

WEB DEVELOPER INTERN

PROFILE

I am a Computer Science student with a strong interest in Web Development and Software Development. I have hands-on experience building web applications using PHP, Laravel, React, JavaScript, and MySQL. I am passionate about learning new technologies, solving problems, and developing practical software projects.

EDUCATION

Royal University of Phnom Penh (RUPP)

Bachelor's Degree in Computer Science

2025 – Present

Phnom Penh, Cambodia

- Currently a 3rd-year Computer Science student
- Academic Year: 2026–2027
- Focus: Web Development, Programming, Database, and Software Development

PROJECT EXPERIENCE

Shoes Store — E-commerce Frontend

Personal Project | 2026

- Developed a responsive e-commerce website using React.js, Vite, and Tailwind CSS.
- Built reusable components for product listings, navigation, and store sections.
- Implemented navigation and interactive UI features using React Router, Swiper, and React Icons.
- Deployed the website using Vercel and managed source code with GitHub.

Student Management System — Full Stack

Personal Project | 2026

- Developed a full-stack web application for managing student information.
- Implemented CRUD operations for student records.
- Built frontend and backend functionality with API integration.
- Connected the application to a database for storing and managing student data.
